

Sprint 2 Plan	Time Est.	https://piazza.com/class_profile/get_resource/ktxz1nfkfb5ai/kudirkx9aj6r7							
As a user, I want all the pages to be easy on the eyes and intuitive to access. Divide the page structure into navbar, display area, and footer. Make a functional and good looking navbar. Make user info area in display area to be good looking and user friendly. Make recent match analyze in display area to display something related to their recent games. Make a functional and good looking footer.	Total: 19	Heading	Goal To implement the webpage design and make sure nothing breaks.						
	3	Document Name	Sprint 2 Plan						
	3	Product Name	Game Performance Tracker						
	5	Team Name	Leaguer Devers						
	5	Completion Date	11/2/2021						
	3	Revision No.	1						
		Revision Date	10/24/2021						
As a player, I want to have a visual indicator about my recent game status (change of winRate overtime), so that I can know if I am doing better or worse	Total: 11	Team Roles	Initial Task Assignment						
	5	Eric	Member	Decide the weights of factors in KDA computation					
	3	Hao	Member	Create a graph of the winrate overtime.					
	3	Jack	Member	Divide the page structure into navbar, display area, and footer.					
		Mason	Scrum Master	Make a functional and good looking navbar.					
		Sunny	Product Owner	Add integration test					
As a user, I want the basic features of the websites to be stable.	Total: 10	Scrum Times							
	5	First meeting: 10/24/2021, 3PM							
	5	Second meeting: 10/26/2021, 7PM							
		Third meeting: 10/28/2021, 430PM							
		Initial Scrum Board	User Stories [ordered by priority]		To Do		In Progress		Done
		As a user, I want all the pages to be easy on the eyes and intuitive to access.		Divide the page structure into navbar, display area, and footer.	Make a functional and good looking navbar.	Make user info area in display area to be good looking and user friendly.			
As a player, I would like my aggregate KDA to be computed and visualized.		As a player, I want to have a visual indicator about my recent game status (change of winRate overtime), so that I can know if I am doing better or worse		Make recent match analyze in display area to display something related to their recent games.	Make a functional and good looking footer.				
		Create a graph of the winrate overtime.		Store recent match history in the database					
		Set up/return match data							
		As a user, I want the basic features of the websites to be stable.		Add integration test					
		As a player, I want to have a visual indicator about my recent game status (change of winRate overtime), so that I can know if I am doing better or worse							
		Decide the weights of factors in KDA computation							
As a player, I would like my aggregate KDA to be computed and visualized.		Make the KDA computation and show on the page							
		Decide the weights of factors in KDA computation							
		Make the KDA computation and show on the page							
		Decide the weights of factors in KDA computation							
		Make the KDA computation and show on the page							
		Decide the weights of factors in KDA computation
