Suggested User Stories/Acceptance Criteria

List of suggested user stories/acceptance criteria for actual acceptance test/project review

- As a player, I want to have a visual indicator about my recent game status (change of winRate overtime), so that I can know if I am doing better or worse.
- As a player, I would like my aggregate KDA to be computed and visualized.
- As a user, I want the basic features of the websites to be stable.
- As a player, I want to see my match history so that I can know how I performed recently.
- As a player, I would like to be able to see a leaderboard of current top ranked players.
- As a player, I want to have a good looking Landing page so that I can get a comfortable first impression.
- As a player, I want an application that is tested in every aspect so that I don't have to worry about it crashing.
- As a user, I want to be able to know if the player I am searching for is available in the selected region or not.
- As a user, I want to have a good visual and functional experience using the Web application
